PAYING TRIBUTE TO: UNITED WAY OF PUEBLO COUNTY

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, March 12, 2003

Mr. McINNIS. Mr. Speaker, it is with great pride that I rise today to recognize the United Way of Pueblo County, Colorado. The United Way has been serving Pueblo County for

eighty years, providing a central resource for donations to support an array of critical community services. It is my honor to commend the Pueblo United Way's long record of success before this body of Congress and this nation.

The United Way organization came to Pueblo in 1923 when community leaders raised \$105,000 by knocking on neighbors' doors. Though this effort went through many name changes, it always pursued the same mission: creating a central community fund to support community services. Today, the Pueblo County United Way is an autonomous organization that can focus its resources on the specialized needs of Pueblo County. It relies on hundreds of dedicated volunteers to raise money and keep administration costs low.

Over the years, the UWPC has raised over \$31 million with its fundraising campaigns for its nineteen partner agencies including the American Red Cross, Pueblo Community Health Center, Salvation Army, and the YWCA. Other United Way partner agencies focus on youth development, providing basic food and shelter, and addressing the problems of domestic abuse. In addition, Pueblo United Way administers an endowment gift from the El Pomar Foundation and FEMA funds from the federal government to assist in emergencies.

Mr. Speaker, the United Way makes every dollar count for the citizens of Pueblo County. Thanks to the United Way, thousands of Coloradans have benefited from the generosity of their neighbors, and thousands more have known the joy of giving. It is my great pleasure to honor their eighty years of success here today. Congratulations, and may the United Way continue to serve Pueblo County long into the future!

HONORING A DEDICATED PUBLIC SERVANT, MS. DIANN CONDREY

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, March 12, 2003

Mr. BONNER. Mr. Speaker, there are many unsung heroes who work day and night, week after week, month after month, to support the operation of the United States Congress. Most of these dedicated people labor outside of the spotlight—away from the glamour that is often associated with public service—but their work insures that our work can be done. One such dedicated public servant, Ms. Diann Condrey, will conclude her distinguished tenure on Capitol Hill this month and I rise tonight to salute Diann for her untiring loyalty and service.

Diann began her government career as a high school student in 1968 when she began working with the Department of Defense during the Vietnam war. At that time Diann's salary was a meager \$3,776 a year.

Diann spent the next 16 years working for the Army and Navy originally as a Management assistant and later as a computer specialist and project manager. In 1992, she took a position with the United States House of Representatives as a committee consultant providing computer support services to committees and to leadership offices. In 2000, she became the team leader responsible for training newly hired TSRs.

During my staff days on the Hill, I worked with Diann on a regular basis and got to know her very well. She has been a great asset to our Hill community. Her understanding of often complicated programs was always met with passion for helping her clients understand how to best implement the rapidly changing advances made in computers and technology.

Mr. Speaker, I proudly ask you and my colleagues to join me in honoring Ms. Diann Condrey for her many years of commitment to her Nation through her continued service and employment with the United States. I wish Diann the best of luck in her retirement and always.

THE MEDICARE Rx DRUG BENEFIT AND DISCOUNT ACT OF 2003

HON. JANICE D. SCHAKOWSKY

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, March 12, 2003

Ms. SCHAKOWSKY. Mr. Speaker, last week, President Bush announced his prescription drug proposal for Medicare beneficiaries. Rather than using this opportunity to promote a quality drug benefit that would be dependable and guaranteed for seniors and persons with disabilities on Medicare, the President instead announced his intention to provide a financial benefit to pharmaceutical and insurance companies. By pushing seniors into HMOs—the path to Medicare privatization—and doing nothing to lower drug prices, the Bush policy would enrich industry instead of reducing the financial burden on beneficiaries.

Fortunately, an alternative plan, tailored to meet the needs of Medicare beneficiaries, would provide a comprehensive benefit that is both affordable and guaranteed. I support that plan, outlined by Leader NANCY PELOSI, Whip STENY HOYER, and Representatives DINGELL, RANGEL and others, because it puts the needs of Medicare beneficiaries first.

There is no benefit specified in the President's proposal. President Bush proposes that seniors enrolled in the traditional fee-for-service Medicare program would be eligible for catastrophic loss coverage, a discount drug card, and a \$600 subsidy for those in the lowest income bracket. We don't know how much the catastrophic limit would be—\$5,000, \$7,000, or more. A drug card and a requirement that you spend thousands and thousands of dollars out-of-pocket is not a benefit.

There are several major problems with the President's proposal.

First, a catastrophic-only benefit will help very few beneficiaries. The average Medicare beneficiary spends \$2,500 a year for prescription drugs, meaning that they would get no benefit. For example, if the cap for catastrophic coverage is set at \$6,000, it would only cover 8 percent of Medicare beneficiaries. This enormous out-of-pocket expense is on top of existing Medicare cost-sharing requirements, which are already high.

Second, the Bush administration continues to promote drug cards, even when evidence shows the cards provide little assistance. Seniors would purchase the card for approximately \$25 and then receive only 10 percent to 15 percent off their prescription drugs. In other words, an average beneficiary with \$2,500 in drug bills would pay \$2,125 to
